Recreation Meet Tuesday Night Is Slated By Group

The recreation committee of the Truckee Donner Chamber of Commerce this week is mailing letters to voters in the fifth supervisorial district inviting them to attend the meeting at the old Truckee elementary school March 6 to hear a discussion on the proposed formation of a recreation district.

The speaker will be Everett Gale of the state recreation department, who will outline the advantages and disadvantages of a district and answer questions regarding the proposal.

In the meantime, the Truckee Rotary Club at its meeting Monday night unanimously endorsed the project and Tuesday night the Odd Fellows Lodge took similar action. Other organizations are expected to follow suit.

Under the code in which the district will be organized, providing it is approved by the voters at the March 13 election, activities include those in the fields of music, drama, handicraft, science literature, nature study, aquatic sports and athletics and under the jurisdiction of a governing body of public authority may develop playgrounds, playing fields, parks, beaches, lakes, rivers, swimming pools, gymnasiums, meeting places and other public recreation facilities, the form letter points out.

The letter prepared by the committee comprised of Dr. H. P. Tapia, F. W. Wilson and Ivan Tofft, concludes: "As we are not an industrial community, we must depend upon our natural resources and recreational facilities as support for our community."

Dr. Ben R. King, who circulated Reams' petition declared that the document was lost before it reached the county clerk's office, but that Reams will be a write-in candidate.

"I regret very much that the petition was not filed," Dr. King declared, "as I feel Sherman Reams is a well qualified candidate and will make an excellent director. I urge everyone to write his name in on the ballot, March 13."

Improved Service Being Studied By Utility Directors

Directors of the Truckee Public Utility District Tuesday night discussed ways and means of improving service in both the electrical and water departments without materially increasing costs to the consumers.

The fluctuating voltage situation in the electric system was considered and steps will be taken immediately to correct the matter, Manager Francis Longo explained. While plans have not been affirmed, the board is considering eliminating the present cash discount, with the money thus saved being put back into improving service.

The water program was also discussed with an aim for installing new mains, especially in the south part of town and wherever required. A change in rates was indicated but no immediate action was taken.

The directors, Longo said, recognize the need for improvements in both the electric and water departments and are currently striving to reach a solution satisfactory to both the management and consumers.

Record Cold Hits In Wake Of More Storms In District

Three inches of wind swept snow fell last night in Truckee, adding another .18 of an inch of precipitation. Continued snow is predicted for today and Friday.

Continued storms during the past week, which added 21 inches of new snow in Truckee to bring the pack to 41 inches, have still failed to bring the season's precipitation to normal.

Henry Toccalini at the Truckee office of the U. S. Forest Service, said the precipitation for the 21 inches of new snow amounted to 1.41 inches to bring the February total to 13.06 inches. The normal for the month is 4.98 inches, so while the season may still be short 1.65 inches, the month of February went a long way to make up the shortage.

The area has recorded 20.90 since September 1 and the normal for the same period is 22.75, Toccalini said.

The weekend storms again hampered traffic, but caused no material damage in the area.

The winter sport resorts were filled to overflowing and snow conditions were ideal.

Cold weather has accompanied the storm and the week's high was last Friday when 34 degrees was registered and the low was Tuesday when the mercury dipped to a chilly 23 below for what is believed a record for this date. Some thermometers recorded even lower temperature and at Boca the mercury dipped to 37 below.

TAHOE CITY— The level of Lake Tahoe continues to rise as new storms increase the precipitation in the area. On Monday the level of the lake was 6223.51 feet.

The eight inches of snow Saturday added .53 of an inch of precipitation in the Tahoe City area.

DONNER DOINGS

By VIRGINIA O'BEAR

"Baby, it's cold outside!" That is the popular phrase heard around Donner Lake the past week. Tuesday morning, February 26th we had a temperature reading of 22 below. Now that is a little colder than I can appreciate, I think I'll just stay in where its warm!

We will all miss Julie Clark and her grandson, John, who left last week to spend three months in Hawaii. Julie said she would write to me and keep me posted so from time to time will report on how and what she is doing. She said she just had to get away for her health so hope when she gets back she will be fine from all the sunshine and warm weather.

I wonder how many of you saw Miss Donner Lake, Sandra Van Sickle, on the cover of Valley Leisure of the Sacramento Bee last weekend? Wasn't it a good color picture of our Sandy and her dog? She will be racing in the Tahoe Sierra Dog Derby March 10 and 11th. There was a good write up on the inside cover of that section so we are still getting more publicity for our area. You can always get it with a pretty queen.

The Bert Johnson family spent the long weekend at Donner Lake with a group of young people who are friends of their sons. They found they were minus a chimney due to the heavy snow so had to try to keep warm without the fireplace. In the spring they plan to really build a nice fireplace, chimney and all.

Donna Horman, daughter of Mr. and Mrs. Dan Horman celebrated her birthday on February 21st. Donna was nine February 20th and enjoyed playing games and opening gifts with her little friends Patsy Goldsmith, Janet Corro, Sharon Ford, RoseMary Campos, Lavonne Mayer and Debbie Eckerman. She was delighted with her heart shaped cake made by her mother and the party at her Donner Lake home.

Mr. and Mrs. Dave Leland and daughter, Aileen, recently returned from a 23 day trip to Key Biscayne, Florida. They visited Mrs. Leland's cousin who lives on one of the oldest coconut plantations in the United States. Half of the island is still in its natural state of jungle with giant lizards, snakes, crocodiles, wild animals and all kinds of turtles and birds. They went to Miami's fabulous Seaquarium where they fed the porpoise and saw all kinds of fish. They went boating, fishing and swimming and went to Pompano Beach where they visited the parents of Mrs. Bill Stark of Donner Lake. After taking many pictures and enjoying the hospitality, the Lelands then headed for California but stopped by the Latin Quarters in New Orleans. They spent two days in Cleborne, Texas, Mr. Leland visiting relatives he hadn't seen in 35 years. All in all, the Lelands had a wonderful trip and vacation.

Mr. and Mrs. Ray Pippin, neighbors and friends of the Bill Starks for 14 years in Merced, visited at Donner Lake with their friends recently. They are now living in Riverside and plan many more trips to Donner Lake.

Larry Reid, son of Mr. and Mrs. Rex Reid of Donner Lake is in the Washoe Medical Center in Reno. Larry underwent surgery Friday and is getting along fine but will have to remain there for some time yet. It was a pretty serious operation as a bone had to be taken from his hip to be used in his neck so it will take some time for his recuperation. He is in room 206 and would enjoy hearing from his many friends.

The Donner firemen met at the firehouse last Thursday evening for a regular meeting and an interesting movie was shown. These firemen have been meeting regularly and all are working diligently on the equipment and all are thrilled with their two way radio system.

Since all of the excitement this past week of our first American to orbit, I wonder how many of you mothers are having the same trouble as I? Our son Mike has a good appetite but the other night when I had difficulty getting him to the table I asked "why?" The answer was he was busy 'cause he was in "outer space". I told him he better hurry and orbit around the dinner table and "go", all the way!

EDMUNDS ANSWERS UNION EDITORIAL

Grass Valley Union
Gentlemen:

In a recent issue of your paper you saw fit to take the people of the Truckee Donner Area to task for presuming to propose a name for the "Pass" in Nevada County by which Freeway 80 will cross the Sierra Nevada Mountains. Your article inferred that it is proposed to 'rename', 'cast aside' or 'change' the name of "Donner Pass", over which Highway 40 now traverses.

The people in the Truckee Donner Area would be the last to agree to any 'change' or 'casting aside' of the name to an area or community as well known as the "Donner Pass' or "Donner Summit", as they cherish and honor that name and fully realize its national prominance.

We lay no claim to any exclusive ownership of Freeway 80 in this area and most cordially invite the many millions throughout our country who have contributed to its building to come and enjoy its beauty and grandeur.

In part, you state that Nevada County's Highway funds have been shunted aside, and then state the section of the Freeway under discussion is a part of Nevada County. How inconsistent can one get.

The "Pass" over which Freeway 80 is being built is some one and one half miles north of the Donner Pass and several small lakes, plus "Boreal Ridge", which is several hundred feet higher than either of the two passes, separate them. Through no stretch of the imagination could one conceive of their being one and the same "Pass".

It is for the purpose of distinguishing the areas traversed by both these roads that a separate and historical name is being sought for the new "Pass".

Let us also remind you that the committee has contacted a number of historical societies, historians, and public bodies and are not trying to put anything over, but have invited all who are interested to help select the most suitable name. We can see nothing presumptious, sinister or unpatriotic in such an undertaking, and the Truckee Donner Chamber of Commerce who are sponsoring the selection of a suitable name is heartened in its efforts, by the responses that it has received to date.

The names range from governors to the name of Elisha Stevens, an early pioneer leader.

There are many who might well disagree with your statement that "Elisha Stevens" contributed nothing to the distinction of "Nevada County". As well might we say the name of astronaut, John H. Glenn, Jr., has lent no distinction to our "Country". True, there was no TV or large numbers of spectators to view Stevens accomplishment, or even to know of his existence, let alone his trip, but, nevertheless he successfully pioneered a "way", and brought those under his leadership safely to their destination. There are also those who might well resent your calling Stevens 'an adventurer', or his leadership one solely of 'good fortune'.

It is true, he was an adventurer, in the same sense as all those who pioneered the west in the early days, and helped build our great state, but, as the man who in 1844 brought that gallant band of 26 men, 8 women, and 17 children in 11 wagons across the trackless desert, up the Truckee River, across the Sierra Nevada Mountains by a new and never before traveled route, and landed them all safely at Sutter's Fort, he was a "Leader".

His, was not only good fortune, but 'good judgment', just as surely, as it is well known, it was 'poor judgment' that resulted in making the Donner party historically known. Who is there to say that the leader of the first successful wagon train over these mountains is not as worthy of recognition and honor as that of the disastrous Donner Party. Names continue to be received by our committee and shortly these names will be submitted to the members of the Truckee-Donner Chamber of Commerce, from which it is hoped a suitable historical name will be adopted, that will meet with general acceptance by all.

There's a lot of ground to cover when you're looking for the best route for a power line. There are a lot of valleys to cross, a lot of mountains to climb, and the best route isn't easy to find.

Last year a Sierra Pacific engineer in a helicopter explored a new route for a power line, and in three hours covered terrain that would have taken weeks on the ground. Use of a helicopter to explore power line routes is just one of the modern time and money saving shortcuts used by men of Sierra Pacific Power Company, although it is a little more dramatic than most. The planning and building to keep ahead with modern service for this area is an ever-expanding effort.

Months from now, when the 120,000 volt lines are stretched south from the new Tracy Power Station to the Brunswick Station near Carson, then over to Minden, and finally up the Sierra Nevada range to the south end of Lake Tahoe, you'll know a helicopter helped find the best and most economical route possible. And you'll know that look-ahead thinking at Sierra Pacific is bringing you the best possible service at the lowest possible cost.

SUMMIT SCENE

By FRAN COUILLARD

Am I going to have to change my article's title to Steven's Scene? I really have a thing about this (as Bob Newhart would say!) I look at Donner Ski Ranch and think Stevens Ski Ranch? And Donner Summit Lodge and visualize "Steven's Summit Lodge" And even tho' I understand in a kind of nebulous way — that Steven's Pass would be a name for a new pass — that will overshadow our present Donner Pass, the new cut will overlook the same scene that was the arena for a passion play whose stirring scenes have kept the stage curtain suspended for over a century! Now if you moved from a small house to a large one it doesn't necessarily mean that you have to change your name. The only right way to change your name is to get married — it says here and there certainly is no matrimony contemplated in this instance — not even a decent divorce for the two subjects will be in yelling distance of each other!

And Donner Lake which squints upward at the present pass which is shining in the sun (this particular day) must consider Donner Pass its proud parents! Any change made in the present set up would likely throw this child of the mountains into a first class tidal wave. And the other inverted ice cream cones that huddle around famous Donner Pass some looking down and some looking up will, in all likelihood, march together toward the middle and mess up the whole works.

And people in foreign countries who never heard of Highway Forty have entered my various places and business abodes these past twenty one years with their first question dripping from their tongues "Are we on the Famous Donner Pass?"

And there is a Stevenson, Alabama; a Stephenson, Michigan, A Steven County in Minnesota; a Stevensville, Montana; a Stephenstown, New York; a Stephens County in both Oklahoma and Texas plus a Stephenville in Texas; a Stephens City in Virginia, and a Stevens Point in Wisconsin. And I've saved the best for the last. THERE IS A STEVENS PASS in Washington — Elevation 4,061 feet (a midget! yet-) and also a Stevenson in Washington. And it just seems to me that there are too many "gotcha Steve" names around to tack that common nomenclature to our huge, magnificent God made tower in the sky!

Now Hal Welch! Are you going to change the name of your place to Steven's Lake Lodge? If you do you had better sand bag your shores because that blue expanse you look at out of your lodge windows is really going to kick up a storm!

And I think of the millions and jillions of postal cards that have gone all over the universe with Donner Summit and Donner Pass written across the bottom of same. And I think of all of the advertising that has been put out that has the word Donner Summit emblazoned thereon and I think of that practically last recording I have of the Old Donner Trail (warbled by Jerry Colonna) and all in all I HAVE A THING!

And isn't it plagarism to take the name of another state's pass? (Even tho' it may not be this same Stevens)

And whilst I have taken the time to look up all of the Stevens suffixes and prefixes in the United States — I forgot to look up the Stevens who is giving me this THING!

And what is the most awe inspiring, twisting, turning, tortured, breathtaking small length of pavement in the world? I ask you did you ever hear this "Have we reached the PASS yet? Have we gone over Donner Summit yet? Are chains required over Donner Pass? Are we In Donner Pass yet?" and all with respect! And here is a copy of a little article I wrote about Donner Summit that appeared in YOUR HOST, which is an entertainment guide published by Gordon and Jo' Shelley in Reno. And thousands of copies of this article (included in the little magazine) go out once a week on the Lufthansa which is (and I quote) "the Rolls-Royce powered Boeing 707 Intercontinentals link San Francisco and Europe two times each week in both directions."

DONNER SUMMIT

Epochal Donner Summit, California's and Nevada's highest point on Highway Forty, whose observation point peers down on ermine trimmed Donner Lake. Donner Summit, awesome to the traveler in its curvaceous splendor as it reigns o'er the majestic panorama of the snow capped scenic Sierra. Historical Donner Pass named for the tragic and famous Donner Party whose name has left its imprint on the lake, businesses and its famous resorts.

Chair lifts, T-Bars, J-Bars, Rope Tows and Poma lifts string the western slopes of Donner Summit like a great harp. Its many ski resorts accommodate all types of skiers from the "Snow Bunny" to to the hardy and experienced snow sport enthusiast.

From dormitory accommodations to de luxe accommodations rates are bracketed in ranges that anyone can afford.

Donner Summit's "feet" provide gentle slopes for the beginner, intermediate runs for the more advanced skier, and long steep runs for the professional. Thus the Donner Summit skiing area is known as "the family area."

Ski shops are in profusion for the latest in skiing equipment. Rentals are available for the neophyte who "wants to see if he likes skiing." Ski schools are manned with highly trained, skilled and certified ski directors and instructors.

Beautiful, formidable Donner Summit, therefore, has lost the "curse" of the Tragic Donner Party as it has spread its protecting shadows over that sport of kings called "Skiing."

And as the smoke has been rising from my typewriter — several of my neighbors have come in and they recognize a Thing when they see it. So in answer to their questions I said "There is a rumor being bandied about that Donner Summit's name is going to be changed!" And June Forster said "For Pete's Sake — When Balboa discovered the Pacific they didn't change it's name did they?" And John and Eleanor Johansen said "Affix our protest!" And Bub and Barbara Zorich were horror stricken. And an Old Timer walked in— Remember Kay Jansen? Kay and his wife and three daughters from Anaheim walked in — in the midst of the smoke and we hurriedly said "Hello" which isn't our usual greeting to old friends and I stopped to explain my curtness and they said, we'll sign it too! And that's just the people who dropped in as we smoked. And we'll get some more names, too. And don't you know that no matter what you THINK you might call our Ivory Tower — it will always BE DONNER SUMMIT? DON'T YOU???? FRANTIC FRAN

As you read this message, take a look around you. Quickly check off how many electrical products serve you. Lamps, TV, radio, stereo sets. In your kitchen — electric range, dishwasher, food waste disposer and many small appliances. In your laundry — electric dryer, washer, electric hot water heater.
Isn't it surprising how the list of flameless, fumeless electrical servants grows? It's surprising, too, that for all this day and night electrical service, your electric bill remains low. For comfort, convenience, safety, and VALUE, nothing measures up to electricity!

Washburn, well known in this vicinity for his willingness to help others, and known for his activities, not as treasurer of the El Tahoe Shrine Club only, but in other activities as well, announced that he will fold his wings forever in April, 1962 to become once more the solid citizen of Kings Beach as before.

CRAZY HATS JUDGED AT AUXILIARY MEET

By VIRGINIA O'BEAR

The Auxiliary of the Donner Lake Volunteer Fire Department met at the Church of the Mountains last Thursday evening for a delightful time.

After the dinner, the task of judging the craziest hats began. Since there appeared many beautiful creations which required much time to make, Rev. and Mrs. C. Crawford called on the members to applaud for the one they thought best. The results being that Jean Walker won first with her masterpiece made out of tin cans in the Valentine theme. Jean was presented a pair of hand embroidered pillow cases by President Virginia O'Bear.

Second place winner was Louise Tapia with her sun bonnet of pink and I know Louise must have spent much time wrapping all of those little pieces of candy in saran wrap before sewing them on her large bonnet. To finish the effect, she fastened on some huge lollypops and I'm sure many agreed that not only was her hat pretty, it was "sweet"!

Third place winner was Janet Franklin with her crazy hat made out of a large strainer. Now this was really some hat and you had to do a little exploring on it to find out the "meaning" of it. The most intriguing to most of us was why the "birdie" was turned backwards and we wondered what he was searching for inside Janet's hat until she finally explained. Janet was presented with a little potted pepper plant for her crazy chapeau.

Ginny Stark was the best scavenger at the meeting and won the prize for finding the most crazy items. All of us agreed that we had a crazy meeting and crazy hats and everyone had a crazy time! I wish I could describe the other crazy hats, but you should have been there.

After the meeting was called to order, members voted to participate in the talent show being sponsored by the Truckee Firettes in April. After other business was dispensed, then came elections with members voting to select the same officers of last year for the coming year. Serving the Auxiliary again this year will be: Virginia O'Bear, president; Janet Franklin, vice president; Muriel Wiser, secretary; Ozella Slate, treasurer. Officers of the board are Donna Warnke, Jerie Bonano, Georgianne King, Nancy Brodie and Gertrude Gilson. Auditors and also board members are Laura Horman and Bess Reid. Parliamentarian, Jean Walker. Sadie Fields agreed to continue with her coupon "office".

After the elections, each officer was presented a little red carnation corsage. President Virginia gave each of her officers a set of 7 home made pot holders with their name embroidered and red fire hats appliqued on them. Also a little bottle of Avon cologne tied in the ribbon. After the conclusion of everything, Jean Walker who is parliamentarian for the organization, presented president Virginia with a beautiful jeweled jewelry box with a pin and earring set inside. All officers had signed the little red fire hat and needless to say this president was so shook up she couldn't hardly say thank you! So now I want to thank every member of our wonderful Auxiliary for your help in making my year as your president so successful and memorable!

CARD OF THANKS

The many lovely cards and other messages sent and the kindness shown by members of the Assumption Guild during my recent illness, are greatly appreciated and I am taking this means to give my thanks to each one who has been so thoughtful.

MRS. O. GIOVANNONI

TRAUNER

(Continued from Page 1)

1943 until November of 1945. He served overseas 30 months in the European Theater Operations and as a member of the 2nd Armored Division was one of the soldiers to make the triumphant entry into Berlin itself.

He is married to the former Doris Frank and they have three children, Dale 18, Kathy 8 and Johnny 7 and live in Rough and Ready.

Trauner was appointed to the county clerk and auditor's office by the board of supervisors on July 5, 1956, following the death of Ralph Deeble. He filed for the position and at the June 1958 primary election was unopposed.

Some of the more important changes that Trauner has brought into office are as follows: In 1957 he installed a system of double entry machine accounting for the county books and provided internal audit controls and budget controls for all of the county departments. The system employed by Trauner, provides vital financial information to the board of supervisors each month. He also mechanized by use of addressograph machine, the election procedures and for the first time in Nevada County, provided registration information for the school districts within the County.

One of the newer programs Trauner has installed is the microfilming of all the old district court records and the superior court records. This program insures the safety of the early records of Nevada County. These records are micro-filmed and a copy of each micro-film is deposited at a atomic proof vault in the Santa Cruz mountains.

Trauner has been active on the state controller's committee for uniform accounting and is a member of the executive committee of the County Auditors Association of California and a member of the board of directors of the County Clerk's Association of the State of California.

The candidate is a past commander of Banner Mountain Post 2655, Veterans of Foreign Wars, a member and past officer of Hague-Thomas Hegarty Post 130, American Legion, a member of the Disabled American Veterans and a member of Madison Lodge No. 23 F & A M, a member of the Vestery Trinity Episcopal Church and a member of the board of directors of the Nevada County Historical Society.

in Nevada County. His parents were the late Ozro L. Twitchell and Edna Buckett Twitchell, who resided at 206 Race Street, Grass Valley.

At the time of the marriage of he and his wife, Letha, the couple built a house at 399 Clark Street, where they resided until the death of his parents in 1957, at which time they moved to the former residence of his parents, and maintain a home on the old family site at 206 Race Street.

Before his employment by the county, he worked 13 years for the Idaho Maryland Mines, the last five of these as purchasing agent. Prior to that time he was employed by the Nevada County Narrow Gauge Railroad as assistant station agent.

Mr. and Mrs. James Walker were weekend hosts to Mr. and Mrs. H. I. Mitchell of Palo Alto

NOBODY WANTS TO BE SICK

Some people, consciously or subconsciously, are actually ashamed to be sick. They forget that the marvelous and complicated mechanism called the human body is, like any finely tuned machine, subject to occasional overhauling and repair if it is to continue to function efficiently.

These people resent having to go to a doctor, and they resent having to buy medicine.

Yet these same persons, when their TV sets go on the blink, seek out an expert repairman and pay for services and parts needed to make the set function properly.

Emotions override reason. Nobody wants to be sick. Anything charged for medicine will seem too much.

But good health is far more important than creature comforts.

Today's medicines are your "best buy."
